

# What Can Advanced Placement Do for You?

Troy High School offers a myriad of Advanced Placement courses. By taking an AP class, students can begin earning college credits as early as their freshman year of high school. Each college and university has unique requirements for earning credits based on students' scores on each AP Exam. This table focuses on credits that can be earned at colleges and universities in Michigan as well as universities in The Big Ten Conference. If students earn scores of 3, 4, or 5 on the AP exam for a particular subject area, they might be eligible for college credit.

It is important to note that this information is meant as a guide, and it is imperative that students and parents check with universities to ensure that information has not changed. Specific colleges and areas of study within universities often have specific requirements that fall outside of general guidelines. Checking with universities is a MUST!

Students must be sure to meet eligibility requirements for AP courses as outlined in the High School Course Description Book for the Troy School District.
