

Using KnightCite

Go to <http://www.calvin.edu/library/knightcite/>

Click "New User" and create an account. You will need numbers AND letters for your password. Record your password for future reference. Select MLA for your style preference.

A confirmation will be sent immediately to your e-mail. From your e-mail confirmation, click on the link provided, then you will need to enter your password. Once you are logged in, go to the top menu bar and select "Manage Papers". You will have the option of creating a paper to save entries to. Give your paper a name and begin entering the source information.

Select the type of source from the choices in the left margin (book, magazine, reference book, website, book in a series, antholoty, etc.). Input source information. Save your entries under your paper title.

KnightCite will create your Works Cited page and you can edit/review your page at any time. When you've completed the input of source information, you can export the bibliography to a WORD document that you can edit, save and print.
